

Environmental Health & Safety

Strategy Map

2012-2015

MISSION

We partner with our stakeholders in meeting our shared responsibility to provide a safe campus and protect our environment.

VISION

Engage the UW Community to ensure a healthy and safe place for advancing learning, teaching research and service.

VALUES

- Collaborative
- Highly Qualified Staff
- Accountable
- Service Oriented
- Effective & Efficient

Safety Culture

- Engage UW community in moving strategically into an enhanced culture of health and safety
- Develop tools, training and systems for the UW to foster a proactive health and safety culture
- Obtain Executive endorsement and ownership for culture change

Compliance

- Health and safety programs administered by EH&S will provide the pathway for the UW to assure compliance, health, and safety
- Define for each program: scope, roles, responsibilities, evaluation processes and systems to measure performance
- Develop coordinated outreach materials that address all major applicable environmental, health and safety compliance issues for all audiences

Learning & Growth

- Retain and attract highly qualified professionals who will meet current and future health and safety program needs
- Support EH&S employee development to cultivate expertise, accountability, client-focused services and nimble responses to meet dynamic UW needs
- Provide effective UW health and safety training that is current and regularly evaluated
- Identify & utilize best practices across the organization

Financial

- Develop sustainable financial model that is aligned with strategic goals
- Maintain stewardship of resources to meet goals and priorities
- Ensure equitable service distribution and cost recovery
- Develop systems that demonstrate the value of investing in EH&S programs
