- Click "Add" to add a usage for the given inventory item.
- The disposal date is the date that the waste was disposed. If you do not know, enter today's date.
- Usage information "By Percentage" is the only option available for labs. It should show the original activity of the order. Your responsibility is to details what percent of the initial activity went into different waste streams. If you are accounting for decay, you can use decay, or decay in storage as a waste stream.

- Click on the down arrow for usage category.
- You can add multiple usage categories by pressing the "Add" button. You don't have to do this if you only have one usage category.
- Discrete sealed sources can only have one usage category.
- You can modify the "Percent" used, but you cannot type in the "Usage Activity", that is calculated from the "Percent" box and the "Activity Used" box above.
- **Remember to click "Totally Used".** This removes the item from your RUA.
